Invitation

The Austrian Computer Society in co-operation with the Vienna University of Technology invites you to a presentation by

Prof. Dr. habil. Miklós BIRÓ, Ph.D., MBA  
Corvinus University of Budapest  
representing the John von Neumann Computer Society (Hungary)

Business Drivers and Challenges of Cloud Computing and Social Networking Application Development

Date: January 20th, 2010, 17:00  
Location: Heinz Zemanek Saal, Austrian Computer Society  
Wollzeile 1-3, Vienna

Abstract

This presentation addresses you as an audience whether you are from business or academia, developer or user, but interested and responsive to the new opportunities offered by the rapidly changing software and hardware technology.

Following the overview of the business drivers and of the architectural requirements of Cloud Computing and Social Networking Application Development, we will actually develop and demonstrate within a few minutes the simplest social software which you can use during the session itself to experience its effect.

You are welcome to bring your laptop or internet enabled mobile device, so that you can contribute and personally experience the effect of social networking. WiFi is available.

Registration required:  
Phone: +43 1 512 02 35-23 (Elisabeth Waldbauer)
